

ROBERTSON SCANNELL & LIFELINE
DARLING DOWNS & SOUTH WEST
QUEENSLAND PRESENT:

SOLVING COMMON BUSINESS PROBLEMS

Engage with us to guide your team through a series of tools and methodologies to enable them to solve any issue and deliver successful outcomes.

This 90-minute workshop is available for free for rural communities (businesses and primary producers) to strengthen skills and resourcefulness around problem solving, change management and strategic planning in the face of ongoing drought. One of the most difficult areas of business and personal development is vision setting. For most people tomorrow's vision is the same as today, only slightly better. The world is changing so rapidly that more of the same would be wrong. A clear and concise vision that is well communicated to all stakeholders can give you a sustainable competitive advantage.

What you will learn

- ✓ How to develop a vision
- ✓ How to communicate that vision to your stakeholders
- ✓ Understand the methodology for helping others to see their vision
- ✓ A powerful methodology for problem solving
- ✓ Discover outside-the-box ideas
- ✓ How to get to the root cause of issues
- ✓ How to make robust decisions
- ✓ Brainstorm strategies and prioritise
- ✓ Transform our strategies into actions
- ✓ Pull all our work together into a one page plan
- ✓ How to make it a continuous improvement cycle

At the end of each session participants will be equipped with tools to use in life. They will learn a series of tools and methodologies to help implement a common approach to problem solving in an organisation.

WORKSHOP FACILITATOR

Mark Mahony is a director of Toowoomba financial firm Robertson Scannell and a Chartered Accountant. He specialises in multiple entity structuring and has a passion for technology. Mark works closely with clients to understand the ins and outs of their day-to-day business, and identify opportunities to streamline and automate their processes.

This activity is proudly funded by Darling Downs and West Moreton PHN.
