

Dear Lutheran Services contractor / supplier

This letter is to advise you of the latest Queensland Government Direction regarding visitors to aged care services.

The Premier announced last week that with state borders re-opening by 17th December 2021, unvaccinated people will be *unable* to visit hospitals, residential aged care, disability care accommodation and prisons.

What this means for you

From 17th December, any contractor or supplier attending one of our aged care or retirement village services will need to show proof of being fully vaccinated in the form of your [COVID-19 digital certificate](#). This will be checked at reception as part of the entry process.

We are writing to you now to ensure that, if you have not yet been vaccinated, you have enough time to meet the requirement by 17th December.

As per the current visitation procedure, all contractors, staff and visitors will continue to be health screened and required to sign a health declaration. Social distancing, hand hygiene and infection control practices when you are on site are very important, especially in light of the re-opened borders.

Updates

Ensuring business continuity is a critical element of our planning and we will continue to keep you up to date.

For updates at any time, please visit our website:
www.lutherservices.org.au/covid or contact your contract manager.

Thank you

The health and safety of our residents, staff, families and suppliers are paramount, and we thank you in advance for your cooperation and support as we navigate this situation.
